## **REX customers given alternatives**

**CUSTOMERS** with Regional Express (Rex) air tickets to Melbourne after February 25 are still able to fly to via Wagga.

A spokeswoman from the airline said other alternatives such as flying to Melbourne via Sydney and Merimbula would also be assessed on a case by case basis.

"The people booked on affected services are being notified and those on affected Griffith to Sydney flights are being rescheduled," the spokeswoman said.

"If the ticket was booked through a travel agent it will be their responsibility to contact the passenger."

Fares are also able to be refunded or transfered to a Griffith to Sydney flight at no additional charge.
