Rex lowers surcharge

REGIONAL Express (Rex) has announced it will reduce its fuel surcharge by \$4, to \$40 per sector, in light of the recent drop in global oil prices, applicable from 1 Aug. The reductions apply to Rex's subsidiary Air Link, with the airline saying the reduction reinforces Rex's affordable fares mentality, seeing its ticket price in FY08 15% lower than in FY03 despite a 400% increase in fuel prices.
